

# Jake

*Jake certainly has earned the chance to find a happy ending!* Jake was adopted out from here as a two month old pup but was never taken to the vet for his wellness visits or puppy shots to keep him healthy, never taken to puppy classes to teach him basic manners, never given flea preventative to keep him bug free, and never kept in a stable environment for long enough to learn a routine. And so, four months after being adopted, Jake found his way back to the shelter compliments of his latest failed family, very sick with the parvovirus, infested with fleas, and full of intestinal parasites. Jake's luck began to change the day he came back to the shelter though, thanks to the generous donors to Friends of the Shelter, who supported his transfer offsite where he was treated for the parvo virus, fleas, and intestinal parasites that almost took his life. Jake now knows the 'good' in people and becomes quickly attached to anyone who shows him kindness and attention. He does best with routine and security. He is eager to please and loves to play with other dogs. Jake is crate trained (a part of his security) and nearly housebroken too.

## Special Needs

Vet reference required. Another canine companion would be ideal.

## Go-Getter

Want to get more exercise? Action is my middle name. My 'let's GO!' lifestyle will keep you motivated to get outside and move. I've got tons of energy, and just like the sun, I'm burning and working 24 hours a day, seven days a week. I'll run for miles, chase a ball for hours, and still want to play at the end of the day.
